Subject: Application for Data Scientist III (Ops & Fleet) Position

Dear Hiring Manager,

I am excited to apply for the Data Scientist III (Ops & Fleet) position at Republic Services. With a proven track record of delivering over \$1.3 billion in business value through machine learning and data science solutions, I am confident in my ability to contribute effectively to your team.

In my current role as Lead Data Scientist at Caterpillar Inc., I architected and developed an award-winning AI platform that significantly reduced warranty costs by \$80 million. My expertise in managing end-to-end data science projects, from data mining and model training to deploying robust MLOps pipelines using AWS, aligns well with the responsibilities outlined in the job description. Additionally, my experience in collaborating with senior leadership and stakeholders to ensure project alignment with business goals has honed my ability to communicate complex data insights effectively.

Republic Services' commitment to sustainability and innovative environmental solutions resonates deeply with me. I am passionate about leveraging data science to drive impactful outcomes. I am particularly excited about the opportunity to collaborate with your team to explore new data opportunities and deliver actionable insights that drive strategic decision-making.

Thank you for considering my application. I look forward to the opportunity to discuss how my expertise can contribute to the continued success of Republic Services.

Best regards,

Todd Takala
