Dear Hiring Manager,

JPMorgan Chase's commitment to leveraging AI for network automation and AIOps resonates deeply with my experience in building intelligent infrastructure solutions. I am eager to apply my expertise to drive innovation within your Compute Network Storage group.

My background includes architecting and developing an award-winning AI platform that reduced warranty costs by \$80 million, directly addressing the need for efficiency through AI integration. I have a proven track record in automating enterprise networks, implementing MLOps pipelines on AWS, and optimizing software for scalability and performance, skills crucial for your network automation focus.

I am particularly enthusiastic about contributing to JPMorgan Chase's large-scale infrastructure initiatives. I welcome the opportunity to discuss how my proven ability to deliver impactful, AI-driven solutions can benefit your team.

Sincerely,

Todd Takala
