Subject: Business Intelligence Manager

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Business Intelligence Manager position at GPS Insight. With over a decade of experience in leveraging data analytics to drive significant business value in the fleet and heavy equipment industries, I am confident that my skills in data pipeline development, stakeholder collaboration, and generating actionable insights align perfectly with the requirements of this role.

I specialize in turning complex data into strategic assets. At Empire-Cat, I built a SQL and Power BI pipeline to analyze data, reflecting your job's responsibilities. I manage data lifecycles, developing ETL/MLOps pipelines at Caterpillar with AWS and Snowflake, and integrate data sources for training datasets. I am skilled in SQL and have the expertise needed for your Fabric/Power BI reporting environment.

My background is rooted in not only building technical solutions but also in ensuring they deliver clear, actionable insights to leadership and cross-functional partners. I have a proven track record of collaborating with sales, operations, and engineering teams to define requirements, develop KPIs, and present complex findings in an accessible manner. The prospect of serving as a Power BI advocate at GPS Insight is particularly appealing, as I am passionate about empowering teams to effectively leverage data for operational and strategic decision-making.

Having driven projects that have delivered over a billion dollars in value, I am adept at prioritizing requests and ensuring that all data products meet the highest standards of accuracy and reliability. I am a hands-on problem solver, and I am excited by the opportunity to begin as an individual contributor and grow with the company into a leadership role.

My extensive background in fleet analytics and reliability engineering gives me a unique understanding of your customers and the industry you serve. I am eager to bring my technical skills and industry expertise to the Finance team at GPS Insight.

Thank you for your time and consideration. I have attached my resume for your review and welcome the opportunity to discuss my qualifications further.

Best regards,

Todd Takala
